**CIRCULAR**

**SUBJECT: Use of energy efficient CFL/LED lamps in stall lighting in the fairs/exhibitions at Pragati Maidan -- A step towards Green Exhibition.**

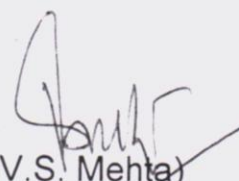

As measures of energy conservation and making exhibitions eco-friendly, It has been decided by ITPO that:

1. Only CFL/LED lamps will be used in stalls as spot lights.
2. Use of Halogen and comptalux lamps as spot lights has been totally banned in Pragati Maidan.

Hence all the organisers/exhibitors are requested to use only energy efficient CFL/LED lamps as spot lights in all the events/fairs in Pragati Maidan.

We expect that all exhibitors will comply with the above.

Any exhibitor who does not want to use CFL/LED for any reason may please inform to ITPO in advance with the reasons thereof.
